Globalization And Neoliberalism The Caribbean Context

Counter-Globalization and Social Movements in the Caribbean: Democracy, Community, and Everyday Life in a World in Flux

Recent studies have explored the growing body of research on globalization and climate change in the Caribbean. This book is a significant addition to the literature on the topic that is of critical importance to the region. It explores research from a range of disciplines, including environmental science, geography, economics, and anthropology. This book provides a comprehensive overview of the scientific understanding of climate change and its impacts in the Caribbean. It also examines the policies and practices that are being implemented to address climate change and promote sustainability in the region. The book is essential reading for policymakers, academics, and practitioners who are interested in understanding and responding to the challenges posed by climate change in the Caribbean. The book offers insights into the complex interplay between globalization and climate change, and highlights the need for a multilayered approach to addressing these challenges. It is a valuable resource for anyone seeking to understand the role of globalization in shaping the future of the Caribbean.
Globalization and Neoliberalism: The Caribbean Context

Globalization and Development. Follows the experiences of the Latin America and Caribbean region to provide a multidimensional assessment of the globalization and processes of development from the perspective of different countries. Based on a study by the United Nations Economic Commission for Latin America and the Caribbean (ECLAC), the book provides a historical overview of economic development in the region and presents the regional challenges and policies to achieve a more equitable, sustainable, and inclusive development. It offers a comprehensive analysis of the region's economic, political, and social changes, highlighting the role of globalization, poverty, inequality, and the need for policy reforms. The book is divided into three parts: the historical context, the economic context, and policy implications. The historical context examines the roots of globalization and the impact of economic policies on the region. The economic context analyzes the economic performance and challenges of the region, while the policy implications propose strategies for addressing the region's development challenges.

Globalization and the Post-Crime Emigration is a major intervention into discussions of Caribbean practices gathered under the rubric of globalization. Examining sectorial, political, and economic transformations in the Caribbean, Mikhailine A. Chickett argues that the globalization/cultural creation processes are simultaneously linked with neoliberalism and state capitalist projects, and that global networks of capital and finance, and especially the Third World. This book traces the impact of globalization upon the dependent experiences of the Caribbean region.
